ORDERING OPTIONS

OPTION 1

Your site foreman can place orders using the Werner Electric app.

Your Werner Electric VMI team member will put away orders and organize storage solution carts.

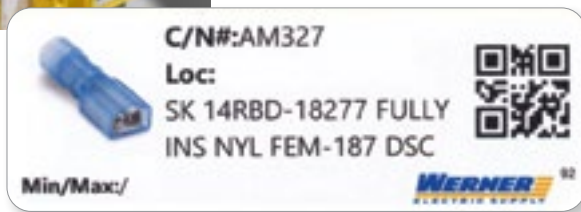

Scannable product binder (sample)

OPTION 2

Your Werner Electric VMI team member will order parts while visiting your location.

We will put away orders and organize storage solution carts during our visits.

Scannable label (sample)

STEP BY STEP ONSITE

What you can expect during a VMI team member visit:

- Upon arrival, VMI Rep will contact site foreman via phone call / text
- Discuss and determine future site plans and needs
- Deliver materials to designated locations
- Put away material on individual carts/job boxes
- Break down, discard or remove all packing material
- Organize job boxes, carts/storage materials
- Replace and add barcoded labels requested on previous visit
- Place order to maintain Min/Max range set by customer
- Submit order via Werner Electric phone app
- Check return bins and process RGA requests if needed

LABOR SAVING SERVICES

Our custom assembly services can save you valuable time and money. Eliminate time-consuming labor tasks by letting us prefabricate metal box assemblies and pre-modify (and pre-populate) enclosures, back panels and tubs. Let us prefabricated light fixtures and prepare wire and cable speed pulls. All you'll need to do is a quick and easy installation. All customization is done in-house and can be delivered directly to your jobsite.

Metal Box Assemblies

Significant time and labor savings for contractors! Let us custom assemble your metal boxes with the mud rings, pigtailed and accessories you need for quick installation.

- Metal box assemblies
- Uni-mount mud ring
- Direct or floor mount
- STAB-It box assemblies
- Mason box stubs
- Large capacity boxes for data
- Ceiling boxes with pigtailed
- Conduit bends/data drops
- Pigtailed devices

Enclosure, Back Panel and Tub Modification

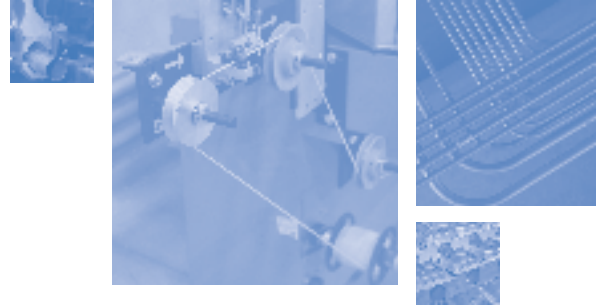

Don't waste your time making holes and cutouts manually! We can pre-modify Hoffman enclosures, back panels and tubs which are ready to populate. Our extensive local market inventory allows you to receive pre-modified enclosures, back panels and tubs in 1 to 2 weeks.

- DWG, DXF (no 3D files)
- Maximum enclosure size: 90" x 90"
- Minimum back panel size: 78" x 72"
- Drawings produced for customer approval

Modification of:

- Painted carbon steel
- Stainless steel
- Non-metallic enclosures
- Panelboard tubs

Pre-fab Light Fixtures

Custom pre-fabricated connectors on light fixtures make jobsite installation a breeze. Pre-assembled fixture whips attach or snap directly into the light fixture housing and no tools are required for installation. This cost-effective solution eliminates lock and wire nuts. Easily insert the light fixture's conductors into the corresponding parts and you're finished.

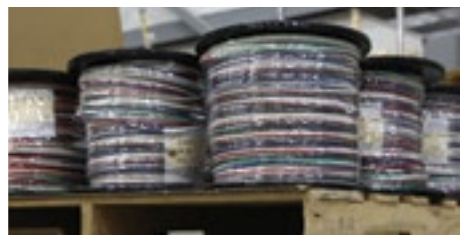

Let us pre-fab and stage your entire building of fixtures, then expedite release to your jobsite when and where you need them!

Speed Pull

Speed Pulls are up to **5 1/2 times faster** than manual wire and cable pulls. Our Speed Pull service bundles and binds together various types of wire and cable into one compact, flexible, multi-conductor cable. Your custom Speed Pull can include color-coded or numbered copper and electronic conductors. Get faster installation and easier identification with every run.

- Multiple-type, custom-bundled cables on a single spool
- Pre-made pulling heads
- Significant labor savings – one single, fast cable pull
- Simplified material management and material waste on the job
- Quick turnaround

MATERIAL MANAGEMENT SOLUTIONS

Let us help keep your crew safe and efficient using...

- Clamshell Carts
- Welded Security Carts
- Cubby Carts
