

PROCESS SOLUTIONS INSTRUMENTATION LINE CARD

Werner Electric Supply partners with the industry's top process control experts. Our inventory includes Flow Meters, pressure, temperature, and level transmitters, pressure and temperature gauges, and more! If you're looking for additional field instrumentation, contact your Werner Electric Sales Representative and we can help you design the best process solution for your application!

Yokogawa | Technical Support: 1-800-524-7378

Differential, Gauge, and Absolute Pressure Transmitters • Mag Flow Meters • Coriolis Meters
Paperless Chart Recorders • Liquid/Gas Analyzers • Temperature Transmitters

Baumer

Level Measurement • Pressure Measurement • Temperature Measurement
Flow Measurement • Conductivity Measurement

Badger Meter | Technical Support: 1-877-243-1010

Mag Flow Meters • Coriolis Meters • Vortex Flow Meters
Turbine Meters • Research Control Valves and Electric Actuators

Vaisala | Technical Support: 1-888-824-7252 (8:00 a.m. - 5:00 p.m. EST)

Temperature • Humidity • Dew Point • CO₂

See reverse for more Process Control Instrumentation >

Bray

Butterfly Valves • Check Valves • Ball Valves
Actuators • Knife Gate Valves • Control Valves

Armstrong International | Technical Support: 1-877-486-4666

AIM 5700 Wireless Steam Trap Monitor

REOTemp

RTD's • Thermocouples • Temperature Transmitters • Pressure Transmitters

MTS Sensors | Technical Support: 1-800-633-7609

Level Transmitters

Dwyer | Technical Support: 1-219-879-8000 (Monday-Friday from 7:00 a.m. – 5:00 p.m.)

Differential Pressure Transmitters • Remote Displays • Air Velocity Transmitters • Flow Meters
Level Switches • Ultrasonic Level Transmitters • Float Level Transmitters
Process Controllers • Temperature Transmitters • Valves

Dwyer has a vast assortment of cost-effective process instrumentation and process control devices.

Werner Electric Supply has access to additional lines of instrumentation via our partner network.
