

CREATING & UTILIZING PRODUCT LISTS

STEP ONE

Product Lists (*previously titled Product Groups*), can be created in a variety of ways. These are great if you frequently purchase the same items, prefer to save shopping lists for later purchases, or simply want to customize your account in order to reduce searching time. When you are looking at products on the site, you will notice a button on each product that says “+Product List”.

SEARCH RESULTS PAGE

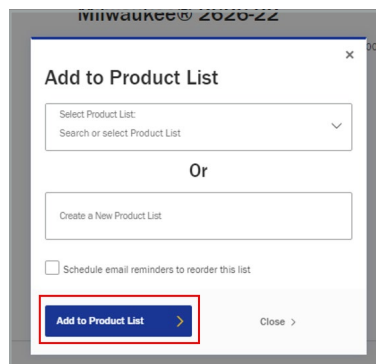

PRODUCT DETAIL PAGE

STEP TWO

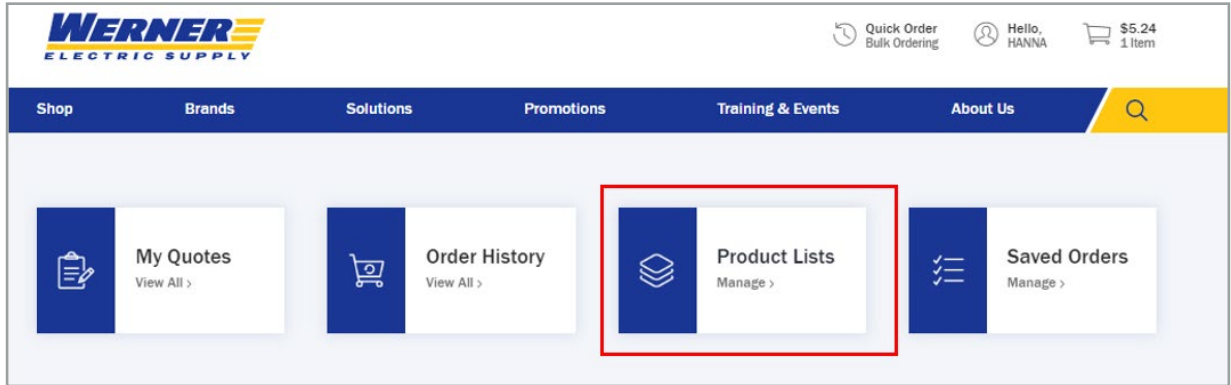

When you click that button, you will get a pop-up like the one shown below, asking you to either select an existing product group to add to, **OR** create a new product list. Then click the “Add to Product List” button when you are ready.

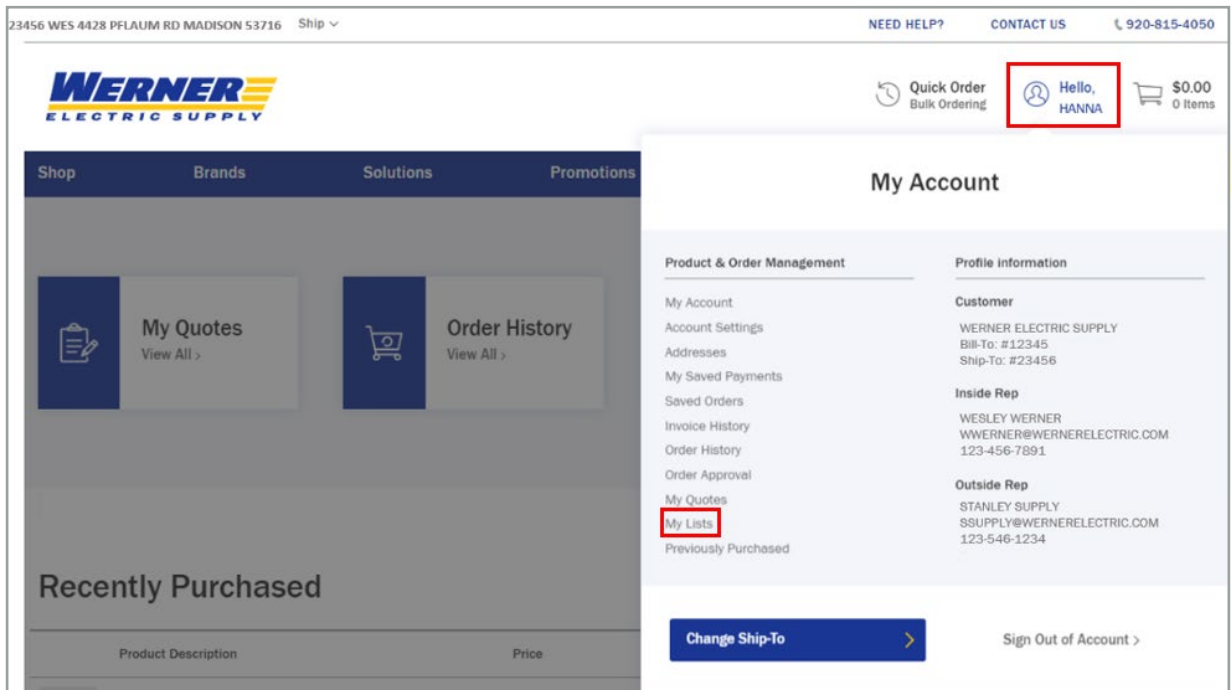

Continue >

STEP THREE

To access your product lists, you can select the [Product Lists](#) widget from your homepage

OR "My Lists" from the "My Account" dropdown.

[Continue >](#)

STEP FOUR

You will now see all of your product lists. From here, you can add an entire list to your cart or delete an entire list.

The screenshot shows a web interface for 'My Lists'. At the top, there is a breadcrumb trail: < Home < My Account < My Lists. Below this is the title 'My Lists'. There are two search bars: one with the placeholder 'Search' and a magnifying glass icon, and another labeled 'Sort By' with a dropdown menu currently set to 'Last Updated'. A blue 'Create List' button with a right-pointing arrow is on the right side.

Below the controls, there are two list entries:

- test**: Updated 8/19/2020 by HANNA BRAZEE. It contains three items (represented by icons of pliers, a wall outlet, and a wire) and has a total of 5 items. To its right, the 'Add List to Cart' button (with a shopping cart icon) and the 'Delete List' button (with a trash can icon) are highlighted with red boxes. Below these buttons, it says 'Shared with 1 others'.
- test 2**: Updated 8/19/2020 by HANNA BRAZEE. It contains two items (represented by icons of pliers and a wall outlet) and has a total of 2 items. To its right, the 'Add List to Cart' button and the 'Delete List' button are highlighted with red boxes. Below these buttons, it says 'Private'.

Continue >

STEP FIVE

If you click on the title of the list, you will be able to open it up and view all of the items within the list. You can delete individual items from the list if they are no longer necessary. You may also add individual items from your list to your cart without adding the entire list at once. You may also update product quantities before deleting or adding items to your cart by changing the number in the box located directly above the “Add to Cart” button.

The screenshot shows a web interface for a product list titled "test". At the top, there are navigation links: Home > My Account > My Lists > test. On the right, there are icons for "Export Product List", "Share", and "Print". Below the title, it says "Updated 8/19/2020 by HANNA BRAZEE" and "Shared with 1 others". There are also icons for "Schedule Email Reminder", "Copy", "Delete", and "Edit".

The main content area shows a search bar with the text "Search list by keyword or item #". To the right of the search bar are two buttons: "Add List to Cart" and "Add Items". Below the search bar, there are controls for "Select All", "Add To Cart", and "Delete". On the right side, there is a "Sort by: Custom Sort" dropdown and an "Edit Sort Order" link.

Two product items are listed:

- Item 1:** Milwaukee® 48-22-6109 General Purpose Wire Stripper/Cutter, 20 to 12 AWG Solid/Stranded Cable/Wire. Price: \$9.99 / EA. Status: Out of Stock | Est. Available: 2.5 Days. Quantity box: 2. "Add To Cart" button is highlighted with a red box.
- Item 2:** Leviton® 5374-S00 Grounding Straight Blade Receptacle, 250 VAC, 50 A, 2 Poles, 3 Wires, White. Price: \$9.99 / EA. Status: In Stock: 126 | Check Warehouses. Quantity box: 1. "Add To Cart" button is highlighted with a red box.

STEP SIX

You can also export your product list into a spreadsheet. Refer to [Website Guide: Exporting Product Information](#) for detailed directions on exporting.

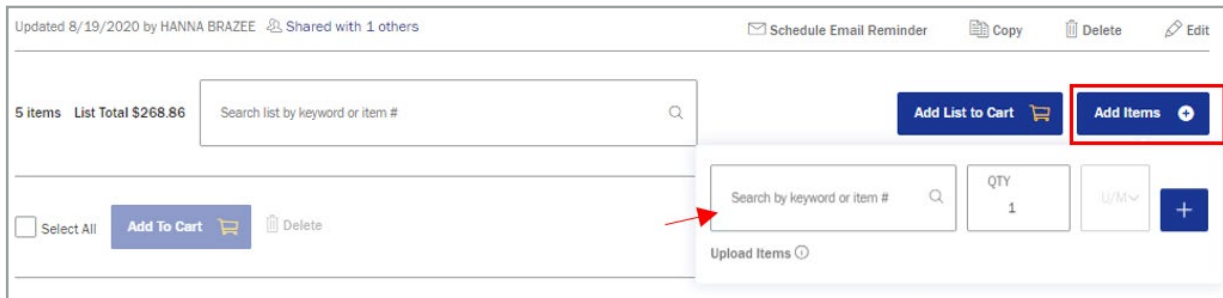

This screenshot shows the same product list interface as above, but with the "Export Product List" button highlighted with a red box. The rest of the interface, including the navigation, search bar, and product listings, is identical to the previous screenshot.

Tips & Tricks for Utilizing Your Product Lists >

TIPS & TRICKS FOR UTILIZING YOUR PRODUCT LISTS

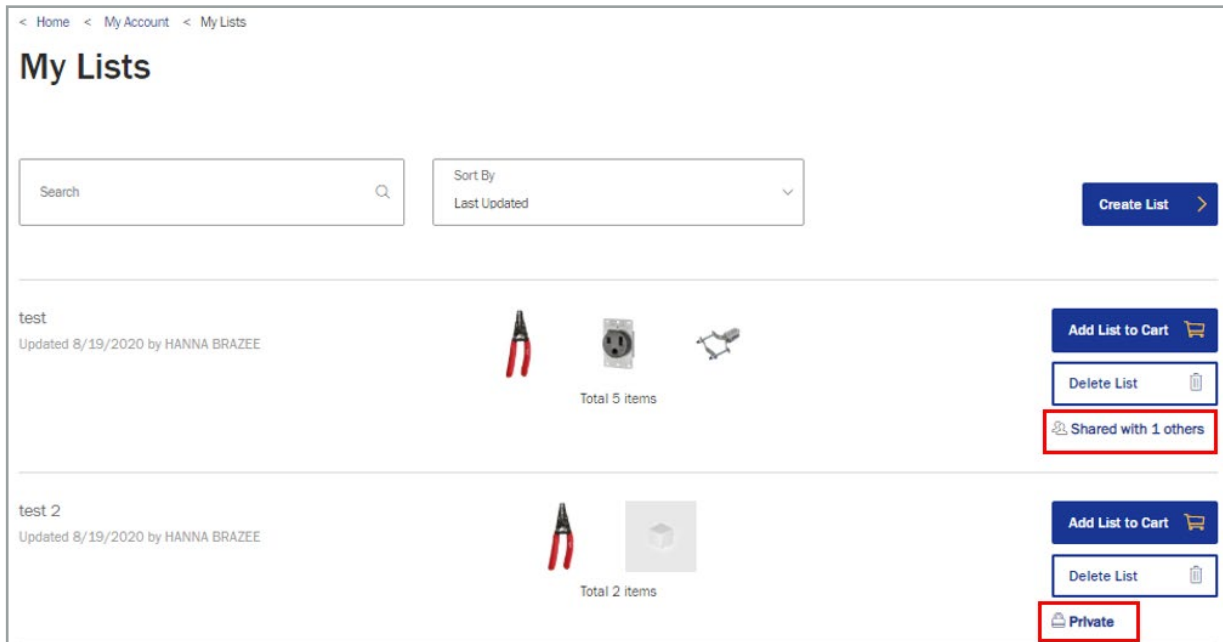

TIP ONE

Add additional items to your product list right from the product list page by clicking the “Add Items” button. You will be able to search by keyword or item # and add to your list right from here:

TIP TWO

Lists can now be shared with others. You can see this right on the main product list page where all of your lists are shown.

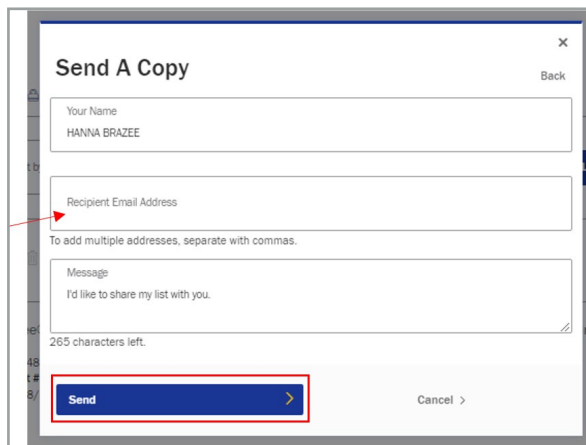

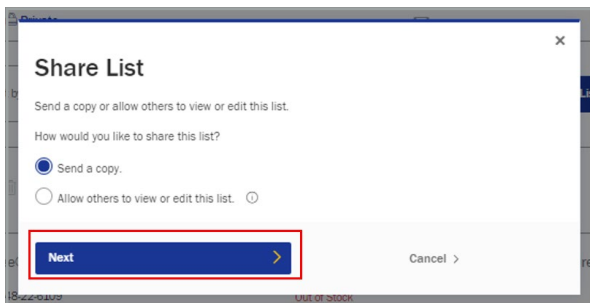

Continue >

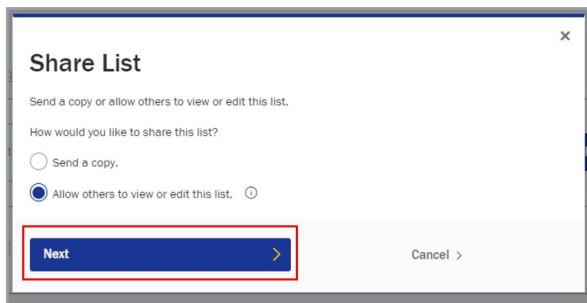

In order to change the share settings on one of your lists, you will need to click into the list that you would like to share. Click the “Share” button in the top right corner.

You will then get a pop-up asking if you would like to simply “Send A Copy” or “Allow others to view or edit this list.” Sending a copy will allow you to email a copy of your list to someone. You can type in their email address and add a brief message, and a copy of your list will be emailed to that person.

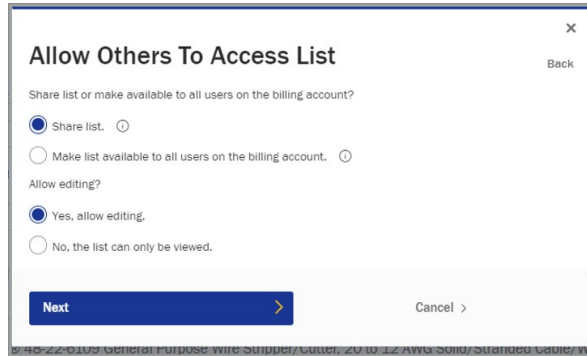

In order to allow other web users at your company to view and edit the list from their accounts, you will need to select “Allow others to view or edit this list.”

Continue >

Next, you will need to decide if you would like to share with certain individual(s), or all web users at your company. You will then need to decide if you would like them to be able to edit the list, or ONLY be able to view it.

The screenshot shows a dialog box titled "Allow Others To Access List" with a close button (X) and a "Back" button. The main question is "Share list or make available to all users on the billing account?". There are two radio button options: "Share list." (selected) and "Make list available to all users on the billing account.". Below this is the question "Allow editing?" with two radio button options: "Yes, allow editing." (selected) and "No, the list can only be viewed.". At the bottom, there are "Next" and "Cancel" buttons.

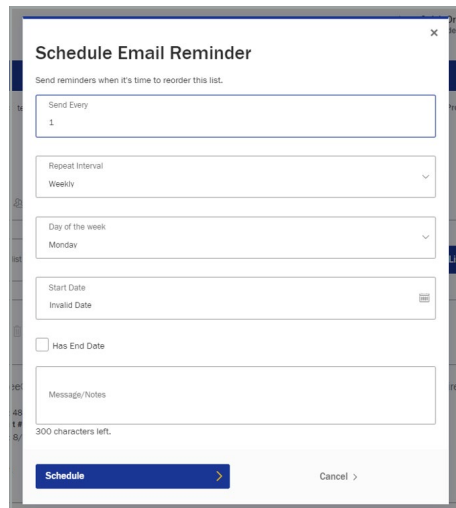

TIP THREE

If you build a product list of items you frequently purchase, you can schedule an email reminder to reorder that list.

The screenshot shows a web interface for a product list titled "test". At the top, there are navigation links: "< Home < My Account < My Lists < test". On the right, there are action buttons: "Export Product List", "Share", and "Print". Below the title, it says "Updated 8/19/2020 by HANNA BRAZEE" and "Shared with 1 others". At the bottom right, there is a toolbar with buttons for "Schedule Email Reminder" (highlighted with a red box), "Copy", "Delete", and "Edit".

You can set how often you would like the email reminder, the preferred day of the week, a start and end date for the reminder, and a brief message.

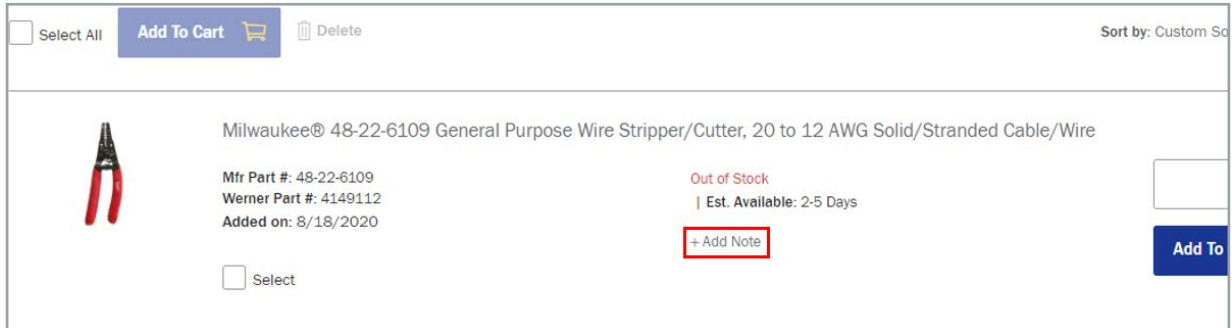

The screenshot shows a dialog box titled "Schedule Email Reminder" with a close button (X). The instruction is "Send reminders when it's time to reorder this list.". There are several input fields: "Send Every" with the value "1", "Repeat Interval" set to "Weekly", "Day of the week" set to "Monday", and "Start Date" set to "Invalid Date". There is a checkbox for "Has End Date" which is unchecked. Below these is a text area for "Message/Notes" with a "300 characters left" indicator. At the bottom, there are "Schedule" and "Cancel" buttons.

[Continue >](#)

TIP FOUR

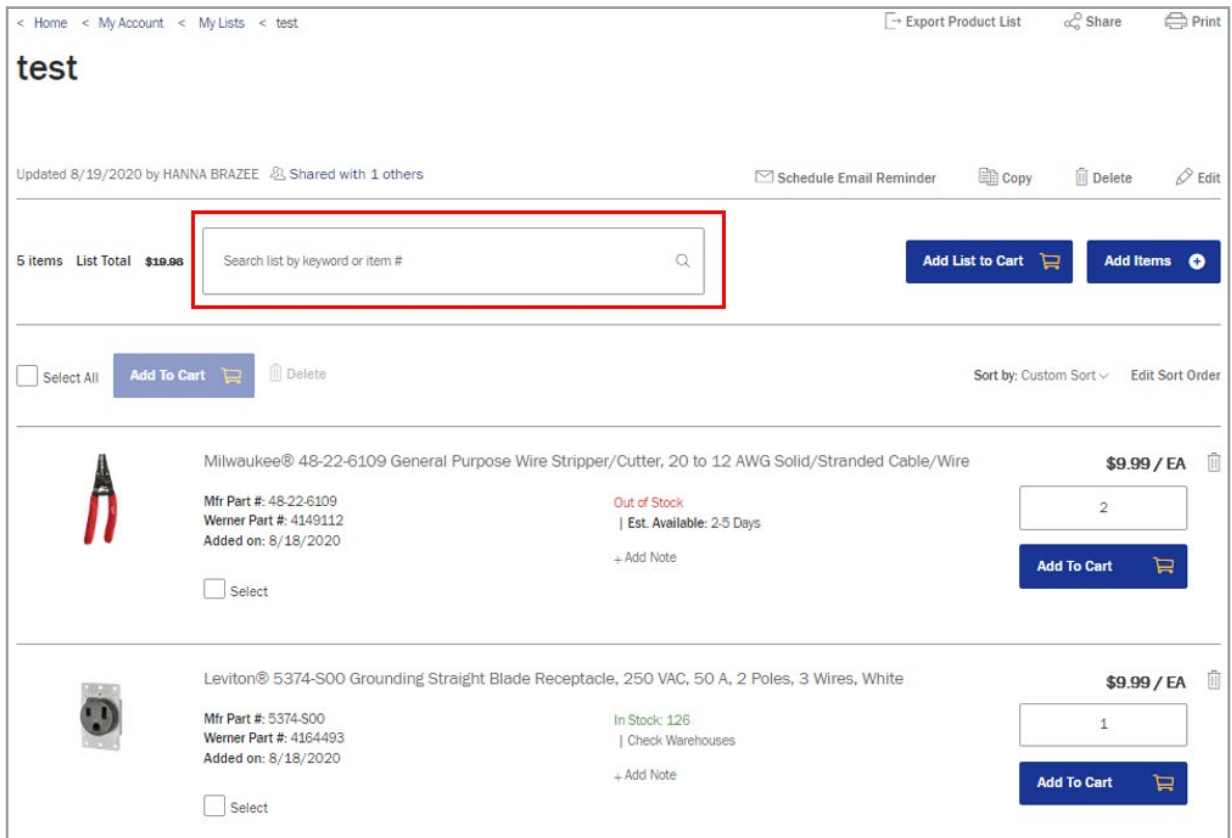

You can add notes to the various items in your product list by clicking “+Add Note”. This can be useful for those that share lists with other users. You could add a note on a particular item to allow these other users to see the importance of that item. These notes will not display anywhere other than within the product list.

This screenshot shows a single product entry in a list. At the top, there are controls for 'Select All', 'Add To Cart', and 'Delete', along with a 'Sort by: Custom Sort' dropdown. The product is a Milwaukee® 48-22-6109 General Purpose Wire Stripper/Cutter. It includes a small image of the tool, its manufacturer and Werner part numbers, and the date it was added. The status is 'Out of Stock' with an estimated availability of 2-5 days. A red box highlights the '+ Add Note' button. To the right, there is an empty input field and an 'Add To' button.

TIP FIVE

If you have a large product list, you can search for products within the list.

This screenshot shows a full product list interface. At the top, there are navigation links for Home, My Account, My Lists, and test. There are also options to Export Product List, Share, and Print. The list title is 'test'. Below the title, it shows the list was updated on 8/19/2020 by HANNA BRAZEE and is shared with 1 other person. There are icons for Schedule Email Reminder, Copy, Delete, and Edit. A summary bar shows '5 items' and a 'List Total' of '\$19.96'. A search bar with the placeholder text 'Search list by keyword or item #' is highlighted with a red box. To the right of the search bar are 'Add List to Cart' and 'Add Items' buttons. Below the search bar, there are controls for 'Select All', 'Add To Cart', and 'Delete', along with a 'Sort by: Custom Sort' dropdown and an 'Edit Sort Order' link. The list contains two items: the same Milwaukee wire stripper (priced at \$9.99/EA) and a Leviton® 5374-S00 Grounding Straight Blade Receptacle (priced at \$9.99/EA). Each item has a small image, part numbers, stock status, and an 'Add Note' button. Quantity input fields and 'Add To Cart' buttons are also present for each item.
